* Recent methodology updates to the Medi-Cal aid categories now reflect eligibility reporting pertaining to the full-scope expansion of the Adult Medi-Cal population, regardless of their immigration status. All members having an unsatisfactory immigration status (UIS), as well as members previously reported in the "Undocumented" aid category, have now been grouped together in the "Other" aid category. It is important to highlight that the "Other" aid category also includes a portion of full-scope aid codes that are distributed across the various other aid categories listed in this table. However, these particular aid codes have not been specifically outlined in the "Other" section itself.

For a description of each aid code, see the Medi-Cal Aid Code Master Chart by using the link below:
